SUMMARY

Aspiring Android app developer and student. Skilled in designing and developing dynamic mobile applications with a strong focus on user experience and robust functionality. Dedicated to creating user-centric designs and continuously enhancing app performance on mobile platforms.

EDUCATION

University Of Chakwal

Bachelor in Computer Science

Sep, 2022 - Jul, 2026

Royal College, Chakwal

FSC

Sep, 2020 - Jul, 2022

SKILLS

Java, Dart, C#, MYSQL, PHP, REST API, SDK, Firebase, SQLite, JS, HTML, CSS, XML

SOFT SKILLS

Collaboration, Problem-solving, Communication, Time management, Result-oriented

LANGUAGES

English

Urdu

German

PROFILE

I am an undergraduate student in Computer Science, constantly captivated by the transformative power of technology and its profound impact on our world.

I have developed proficiency in various skills, including Data Structures and Algorithms (C++), as well as programming languages like Java, Dart, and C#. My experience extends to Android development, cross-platform applications, Unity game development, and web design.

Outside of technology, I am passionate about table tennis and have dedicated my college years to honing my skills in the sport.

PROJECTS

ECommerce Cosmetic App

May, 2024 - June, 2024

<https://LushGlimpse.com>

- LushGlimpse was built using a powerful and versatile tech stack. We utilized Java for robust and reliable backend development, ensuring that the app runs smoothly and efficiently.
- The user interface was crafted using XML, allowing for sleek, responsive designs that provide an intuitive and engaging user experience. On the server side, we implemented PHP for seamless scripting, ensuring that the communication between the app and the server is fast and secure.
- To manage our data, we chose MySQL for its efficiency and reliability, providing a solid foundation for our database needs. Finally, API integration was key to creating a dynamic and interactive user experience, allowing us to integrate various features and services seamlessly.

Image BG Remover

Nov, 2024 - Nov, 2024

<https://LanguageTranslator.com>

- The app provided users with an efficient and accurate tool for background removal, improving productivity for creatives and casual users alike.
- Gamified features like the Spin Wheel increased user engagement and retention, offering a fun and rewarding experience.
- Monetization through AdMob ads, in-app purchases, and subscriptions ensured sustainability and growth potential for the app.

Skills Swap App | UI-Kit

Dec, 2024 - Dec, 2024

<https://SkillsSwapApp.com>

- The UI kit significantly reduces the time required to build a skill exchange platform.
- The clean design and smooth user flow enhance engagement for users looking to swap skills or chat with peers.
- The app is fully optimized for both Android and iOS, providing a consistent experience across devices.
- The modular design and reusable components empower developers to integrate this kit into their projects easily.
